Laboratory Services

Services offered include:

- Hematology
- Chemistry
- Coagulation
- Blood banking
- Urinalysis
- Serology

The Laboratory is a full-service laboratory for inpatient, outpatient and emergency room patients.

The Laboratory is staffed by highly trained professionals. All Clinical Laboratory Improvement Amendments (CLIA) are followed.

Tests not performed at Greene County Medical Center are referred to Pathology Laboratory. Anatomical pathology services are provided by Iowa Pathology Associates.

Staff members are on call for emergencies after normal business hours.

Community Wellness Screens

Community wellness screens are offered the 2nd Thursday of each month from 6 - 9 a.m.

PSA (prostate specific antigen) tests and TSH (thyroid-stimulating hormone) tests are also available.

A 12-hour fasting period is required prior to the screening. Please call the Lab to set up an appointment.

We Provide:

Fast and friendly service: The average length of time spent in our lab is five minutes.

Same day results: Results from over 100 tests done at the medical center are available to your physician the same day as the test.

Flexible hours: Our lab opens for your convenience at 7 a.m. on weekdays.

Coordinated care: Lab results can be viewed by other physicians within the UnityPoint Health system and by other providers and medical center departments — including ER, in case of an emergency.
